Research Design

Research Design to include Wargaming as a method of analysis

Goal: Be able to translate Sponsor questions into a formal study design using multiple methods of analysis. Understand the process and potential pitfalls.

Description: Enable the student to define appropriate questions; develop measures of effectiveness; identify methods; define method interactions and the sequencing of the methods; define data capture and analysis methods. Enable the student to interact with sponsors to specify the questions to be examined.

Pre-requisite: Course 1.
