Sensitive but Unclassified:

Safeguarding Sensitive But Unclassified Information

The Military Operations Research Society will adhere to the following guidelines for managing the access and dissemination of SBU information while conducting MORS Special Meetings and Symposiums.

Sensitive But Unclassified (SBU) is a designation of information in the United States federal government that, though unclassified, often requires strict controls over its distribution. SBU is a broad category of information that includes material covered by such designations as For Official Use Only (FOUO), Law Enforcement Sensitive (LES), Sensitive Homeland Security Information, Sensitive Security Information (SSI), Critical Infrastructure Information (CII), etc. It also includes Internal Revenue Service materials like individual tax records, systems information, and enforcement procedures. Some categories of SBU information have authority in statute or regulation (e.g. SSI, CII) while others, including FOUO, do not.

General Access, Dissemination and Handling:

Access to FOUO information is based on “need-to-know” as determined by the holder of the information. Where there is uncertainty as to a person’s need-to-know, the holder of the information will request dissemination instructions from their next-level supervisor. FOUO information will not be disseminated in any manner—orally, visually, or electronically—to unauthorized personnel.

Materials containing specific types of FOUO may be further marked with the applicable caveat, e.g., “Law Enforcement Sensitive”, in order to alert the reader of the type of information conveyed. Where the sensitivity of the information warrants additional access and dissemination restrictions, the originator may cite additional access and dissemination restrictions.

A security clearance is NOT required for access to SBU information.

SBU presentations will be submitted to a secure MORS email account. SBU presentations will be controlled on a USB/CD or maintained in a password protected folder and only provided to the holder/presenter of the information for dissemination.

The holder of the information will comply with any access and dissemination restrictions.

Symposium Submission Instructions:

1. SBU presentations submitters should select FOUO or LES under the “Classification” drop down field.
2. Please enter a description of who may attend this briefing.
3. This information will be published along with the Abstract Description.
4. At the time of the presentation the presenter must restate who may be in the room and ask all attendees to comply.
