The MORS National Research Partner Program offers Federally Funded Research and Development Centers (FFRDCs), University Affiliated Research Centers (UARCs) and national laboratories unique opportunities to network, collaborate and innovate with the best defense analysts, operators, and managers from government, industry, and academia. MORS National Research Partners can support their workforce development goals through a variety of benefits. MORS will help you accelerate the development of your existing Operation Research talent, as well as mentor and attract new talent.

Since 1966, MORS has served the Department of Defense and members of the National Security analytic community. Under the sponsorship of the Army, Navy, Air Force, Marine Corps, the Office of the Secretary of Defense and the Department of Homeland Security, the objective of MORS is to enhance the quality and effectiveness of Operations Research as applied to national security issues.

The highlight of the MORS calendar is the annual MORS Symposium. The Symposium is recognized as the premier analytic event in the National Security community to exchange information and receive important peer feedback.

Become a MORS National Research Partner to earn increased exposure, valuable discounts, complimentary memberships and more. MORS offers your organization continuous visibility and access within the worldwide military operations research and national security analytics communities.

This program delivers focused exposure and provides unique opportunities to network and communicate directly with this highly-targeted audience of industry and government decision-makers. By becoming a National Research Partner, your organization can enhance its reputation with clients, create a dialogue with members, and gain exposure through a well-respected and independent source — MORS.

All Partners serve on the National Research Partner Advisory Council providing feedback and suggestions for MORS programs and Workshop topics. MORS National Research Partner benefits include: (Depends on Level):

- Participation in the MORS National Research Partner Advisory Council
- Complimentary Symposium or other Meeting registrations per year
- Discounts on Symposium fees
- Discounts on MORS Special Meetings and Course fees
- Free exhibits at MORS events including the annual MORS Symposium
- Complimentary ads in PHALANX with a circulation of over 10,000 national security professionals
- Free online job postings on the MORS website

National Research Partnerships are available at two different levels. Further information can be found on the reverse side, or at: [www.mors.org/membership/mors-partners](http://www.mors.org/membership/mors-partners)
